Rexroth spare parts catalog

Search in all technologies

Time is money - especially when expensive production facilities experience a standstill. The Rexroth Spare Parts Catalogue offers a quick and easy way to identify and order the necessary spare parts. It also provides online access to documentation material as pdf documents.

Important Advice:
 The Rexroth spare parts catalogue is currently being built up and does therefore not include the entire spare parts programme. Should you have any questions or experience any problems please do not hesitate to contact our competent [spare parts teams!](#)

Here you can enter one of the following:

1. Part no. of the product
2. Fabrication or Sr. no. of Axial Piston unit.
3. Description of the product

Then click on Search

Important Notes:

1. This link can be used to get complete model codes from Part numbers (R9numbers).
2. This link can be used to get model codes from Fabrication (Searial) numbers of Axial Piston units.
3. Seals will be available as Seal kits only. O-Rings will not be available in loose.
4. Small parts like springs, washers, spools etc will not be available as spares.
5. Delivery time for Spare Parts shown on this link is from 6-8 weeks. We request you to plan accordingly. In case it is available ex-stock, you will be informed by Service Centre.
